

Blackthorn Compliance lets you quickly find and secure sensitive data throughout your entire org so you can stay PCI compliant. Proactively find vulnerabilities and take human error out of the equation so you can enjoy peace of mind.

Blackthorn Compliance lets you:

Regain Control

Safeguard against accidental sharing of sensitive data from within your Salesforce org

Find All Violations

Locate and mask credit card numbers and PII in Salesforce records, support cases, emails, messages and more

Proactively Fix Vulnerabilities

Automatically audit your org to find and mask sensitive data before you feel the impact
